

Ericson Baldino Varoto

Tech Lead | Senior Backend Engineer | Cloud Architecture | AWS | C# .NET | Python | Observability

Santo Andre, SP, Brazil | [linkedin.com/in/ericvaroto](https://www.linkedin.com/in/ericvaroto)

PROFESSIONAL SUMMARY

Senior Software Engineer and Tech Lead with over 10 years of experience building corporate software solutions, with a strong focus on backend engineering, cloud architecture, microservices, distributed systems, observability and reliability for mission-critical applications. Experience in high-scale financial environments, technical leadership of agile squads, architectural decisions, solution design, code review, technical mentoring, API integrations, testing, deployment and production support.

CORE SKILLS

Backend	C#, .NET, ASP.NET, Python, JavaScript, TypeScript, Kotlin, REST APIs, microservices, SQL Server
Cloud and DevOps	AWS, Lambda, ECS, EKS, DynamoDB, S3, SQS, CloudWatch, Terraform, CI/CD, Docker, Git
Architecture and quality	Distributed systems, event-driven architecture, SOLID, DDD, unit tests and integration tests
Reliability	Observability, SRE, Datadog, Grafana, incidents, root cause analysis, postmortems, FinOps, APM
Applied AI	Devin, GitHub Copilot and StackSpot for solution design, code analysis and unit test creation

PROFESSIONAL EXPERIENCE

Itau Unibanco - Senior Software Engineer | Full Stack | Tech Lead

October 2021 - Present | Sao Paulo, SP, Brazil

- Technical leadership in agile squads, leading high-scale backend solutions and corporate cloud-based products with a focus on performance, reliability, observability, resilience and business impact.
- Responsible for technical and architectural decisions, solution design, backend integration with mobile and frontend applications through APIs, development standards, code review and technical mentoring.
- Experience with cloud-native architectures, microservices, distributed systems, REST APIs and high-volume backend processing, meeting SLA, stability and security requirements.
- End-to-end ownership from technical refinement to production support, including development, testing, deployment, monitoring, troubleshooting, root cause analysis, postmortems and continuous improvement.
- Practical use of AI in software development with Devin, GitHub Copilot and StackSpot for solution design, unit tests, code analysis and productivity while maintaining technical quality.

Stack: C#, .NET, Java, Spring Boot, Python, JavaScript, TypeScript, Kotlin, Angular, AWS Lambda, ECS, EKS, DynamoDB, S3, SQS, CloudWatch, Kafka, SQL Server, Datadog, Grafana, Terraform, CI/CD, Git, REST APIs, microservices and event-driven architecture.

Itau Unibanco - Mid-Level Project Analyst | Full Stack

December 2019 - October 2021 | Sao Paulo, SP, Brazil

- Full stack development of applications and automations for the payroll loan product, using no-code/low-code platforms and high-code solutions focused on performance, security and scalability.
- Participation across the full development lifecycle: requirements, technical refinement, development, unit and integration testing, deployment and support.
- Development of RESTful APIs and responsive web solutions using C#, ASP.NET, ASP.NET Core, SQL Server, Angular and integrations with legacy systems.

Stack: C#, ASP.NET, ASP.NET Core, VB.NET, Apex, Angular, JavaScript, TypeScript, SQL Server, Salesforce, Automation Anywhere, ETL, Git, CI/CD, Terraform, UrbanCode, Scrum and Kanban.

Indra - Mid-Level Systems Analyst | Full Stack

June 2018 - November 2019 | Sao Paulo, SP, Brazil

- Worked on an outsourced project for Itau Unibanco, focused on the creation, maintenance and support of automations and corporate applications for the payroll loan business area.
- Developed desktop and web systems using C# and SQL, including integrations with internal systems, corrective and evolutionary maintenance, testing, production support and continuous improvement of banking processes.

Stack: C#, SQL, SQL Server, web applications, desktop applications, process automation, banking systems and corporate application support.

Stefanini Brasil - Mid-Level Programmer Analyst | Full Stack

April 2016 - May 2018 | Sao Paulo, SP, Brazil

- Maintenance and development of features for global Service Desk systems at Nestle, interacting with users and developers from the United States, India and Switzerland.
- Worked on BPM and ECM systems, including requirements, development, maintenance, testing, implementation and support for corporate clients across Brazil.
- Responsible for corporate web applications and an On-Premises Windows Server environment.

Stack: C#, ASP.NET WebForms, ASP.NET MVC, Visual Basic, JavaScript, jQuery, HTML5, CSS3, Bootstrap, SQL Server, Oracle, Windows Server, BPM, ECM.

Telefonica/Vivo - Mid-Level Programmer Analyst | Full Stack

August 2014 - March 2016 | Sao Paulo, SP, Brazil

- Development, support and evolution of corporate applications for B2B Marketing, including pricing engines, approval workflows, reports, dashboards and integrations.
- Frontend improvements, backend optimization, SQL Server query tuning, SOAP Web Services, Windows Services and support for an On-Premises environment.

Stack: C#, ASP.NET WebForms, Visual Basic, SQL Server, Reporting Services, Crystal Reports, HTML, JavaScript, jQuery, Bootstrap, Windows Server.

T-Systems do Brasil - Junior Programmer Analyst / Systems Development Intern

September 2012 - July 2014 | Sao Bernardo do Campo, SP, Brazil

- Development and maintenance of corporate web applications and customer support tools using C#, ASP.NET WebForms, .NET Framework and SQL Server.
- Report creation, support for critical systems and administration of On-Premises Windows Server environments.

EDUCATION

Faculdade Engenheiro Salvador Arena - Systems Analysis and Development | June 2011 - June 2014

CERTIFICATIONS, RECOGNITION AND LANGUAGES

Certifications: SRE - Trained (pt-BR); Vibe Coding; Bot Developer; Jumpstart To Automation Anywhere; Salesforce - Workflow Digital - Trained.

Recognition: Voce em Alta; PRAD - High Performance Compensation Program.

Languages: Portuguese native; English for reading, technical documentation and basic/intermediate communication in professional contexts.
